

Installation Instructions for 64505 & 64506 JEGS Mustang Rear Control Arms

These control arms are bolt-on replacements for the stock rear suspension arms. These arms have urethane bushings for precision suspension control. Except for Camaro or Firebird applications, which have no upper control arms, the JEGS lower control arms are compatible with the stock upper control arms or JEGS upper control arms are compatible with stock lower control arms or use JEGS upper and lower control arms.

After properly supporting the car on stands remove the stock control arms, one at a time, and replace with the new JEGS ones. Use the stock bolts and nuts on each end.
